

Self Serve ePayment Kiosk

Indoor unit

Outdoor unit, brick enclosed

Across town, in the lobby or at the mall, you can now process customer payments without staff involvement. The NPS ePayment Kiosk is just like being there; it will process Cash, eCheck and Credit Card payments all by using a touch screen while printing the customer a final receipt showing a payment was made. Data can be transferred back to the home office showing each customer that made a payment and also can be posted to the billing software. Conduct interactive surveys, sign customers up for service or just use it to ease the monthly foot traffic. The ePayment Kiosk is the answer to many of your direct collection needs and customer service issues. Indoor and outdoor models are available with language in English and / or Spanish.

The banks have their ATM machines now you have the ePayment Kiosk!

Cash

Paper Check to electronic deposit
